

simply the better solution

Dear Mr. Motiwala,

do you want to be one foot in front of the rest? Do you want to reflect the lifestyle of your customers in your products? Become part of a design revolution? Then you are right with us. Inspiring, creative, innovative - that's us, that's **Perigon**, the new joint venture between Sihl and Trichord.

But for whom exactly do we offer the right solutions? Find out here and follow us von [Instagram](#), [LinkedIn](#) or our [website](#).

And now enjoy reading!

Best wishes from Düren, Bern and Fiskeville

► NEW JOINT VENTURE BRINGS CREATIVITY TO LIFE

The leading companies, in the areas of materials and technology, **Sihl and Trichord** have joined forces to create **"PERIGON"** – the German-based company is the first company to offer the world, unique technical solutions for productive, cost-effective **production of transferring designs to complex 3D objects**. With the patented and proven Perigon process and technology, every complex shape, regardless of material can be designed whereby the production volumes no longer play a role.

Do you want to learn more? Then watch the video message of Sihl Group CEO Peter K. Wahsner.

► MARKETS - SOLUTIONS AS UNIQUE AS YOUR CUSTOMERS

Individualisation and unique designs are not just a trend, but also a

personal lifestyle. Whether athletes, who wish to express their passion for their **sport** through their equipment; **fashion** enthusiasts who are looking for individual sneakers to match their style or families who want to create a harmonised atmosphere by designing their **kitchen appliances** in their own four walls. Perigon offers a solution, regardless of production size.

Which is your market?

▶ THE PROCESS OF THE PERIGON TECHNOLOGY

As brand owner, retailer or online shop you can offer your customers the creative opportunity to participate in the product design. How? Very easy with the Perigon technology. Find out how the process with the **thermoformable film, special ink and the Perigon oven** works to transfer images to any three-dimensional objects.
